

WonderDome is visiting your school!

Dear Teachers,

Your school will soon be receiving a visit from WonderDome.

What is WonderDome?

WonderDome is a company that travels to schools and other establishments where we set up a large inflatable planetarium which is in the shape of a dome in the school Hall. The children come inside the dome for an interactive show based on space. We visit for either a morning or full day, depending on the number of shows your school needs.

What the shows entails?

Each show lasts between 30 and 45 minutes. The presenter will lead an exciting session inside the dome encompassing 360 degree visuals which may incorporate constellations, planets, space travel, stories, facts still and moving images.

What are teachers expected to do whilst the show is happening?

Ensure all the children have been to the toilet before hand - it tends to spoil the effect if we have to keep opening the door to let people in and out!

The equipment we use is fragile, please ensure the children act respectfully inside the dome and do not damage anything.

Sit back and enjoy the show!

All the best

The WonderDome Team
